Hard Questions, Heart Answers Dec 03 2022 Bernice King, the youngest daughter of Martin Luther King, Jr., and Coretta Scott King, is an ordained minister, an attorney, and one of this country's most admired speakers. As this remarkable collection of her sermons and speeches makes clear, she shares with her father a rare gift for oratory and the wisdom and compassion to inspire others. The collection begins with words designed to "disturb the comfortable." Tackling such controversial subjects as our disaffected youth, gun control, and the death penalty, King paints a compelling picture of the spiritual decay and deep-seated racism that infects our society. In the second part of the book, a selection of sermons focusing on "comforting the disturbed," King's belief in the power of faith to restore our communities, morally and spiritually, rings forth. The church, she asserts, must return to its helping and healing mission, and each of us, looking into our hearts, must put aside our differences and remember that each human life is precious.

Following Rabbi Jesus Jul 30 2022 Following Rabbi Jesus is a surprising exposure of who the Jesus we find in the Gospels really is, what he teaches those who dare to follow him, and how he models what it means to live God's radical-kingdom way. The reader of the book will discover in this exploration a very different Jesus from the celebrity or hero of much popular church culture, the tame, ineffective Jesus of compromised Christianity, and the inaccessible, conceptual Christ of much academic theology. The reader who takes the chance of honestly engaging the Jesus we meet in the Gospel stories may find an engaging and liberating contrast to the life he is now living. He may even want to make a turn or two, and start over.

Heart: A History Dec 11 2020 The bestselling author of *Intern* and *Doctored* tells the story of the thing that makes us tick For centuries, the human heart seemed beyond our understanding: an inscrutable shuddering mass that was somehow the driver of emotion and the seat of the soul. As the cardiologist and bestselling author Sandeep Jauhar shows in *Heart: A History*, it was only recently that we demolished age-old taboos and devised the transformative procedures that have changed the way we live. Deftly alternating between key historical episodes and his own work, Jauhar tells the colorful and little-known story of the doctors who risked their careers and the patients who risked their lives to know and heal our most vital organ. He introduces us to Daniel Hale Williams, the African American doctor who performed the world's first open heart surgery in Gilded Age Chicago. We meet C. Walton Lillehei, who connected a patient's circulatory system to a healthy donor's, paving the way for the heart-lung machine. And we encounter Wilson Greatbatch, who saved millions by inventing the pacemaker—by accident. Jauhar deftly braids these tales of discovery, hubris, and sorrow with moving accounts of his family's history of heart ailments and the patients he's treated over many years. He also confronts the limits of medical technology, arguing that future progress will depend more on how we choose to live than on the devices we invent. Affecting, engaging, and beautifully written, *Heart: A History* takes the full measure of the only organ that can move itself.
